## STATE TAX RATE IS HELD TO BE EXCESSIVE

**COMMISSION SECRETARY SAYS 40 CENT RATE WOULD BE SUFFICIENT.**

If the state tax commission does a reasonable amount of work the state, under the 60-cent rate of next year, will have more money than it needs by half.

If the assessed valuation of Washoe county was more fairly distributed, increasing it very largely, the tax rate could be cut to one-third of what it now is.

Liso and Sparks pay most of the county taxes, yet practically all the money raised is spent outside the corporate limits. The burden of running both county and city falls on the city.

A celebration in Tonopah on the Fourth of July is now assured—the ladies of this city having taken the affair in hand, and a program full of interesting events will be arranged for the great natal day. The session was well attended by both sexes and it was decided that the entire affair be left in the hands of the Woman's club of Tonopah.

The meeting was called to order by Sheriff Ed Malley who stated the reason for the call. Mrs. Davenport was elected permanent chairman of the meeting and also of the finance committee, and Mrs. H. C. Schmidt as secretary. A telegram was read in which Tonopah was invited to participate in the celebration to be held in the southern city, with the understanding that Goldfield would reciprocate on either labor day or the next July fourth when Tonopah would celebrate. His opponent has already been selected but the announcement will not be made as to who he is until he has signed up. This will be a ten round contest. Both men are fast fighters with records and this is expected to be a star attraction.

Prior to the announcement that Tonopah would have a celebration for the children a number of local business men declared to the Goldfield committee that they would attend the southern city on the Fourth and it was announced today that they would keep their word. The T. & G. road will run a special train on that date to handle the crowd that is expected to journey to Goldfield.

After spending some days at his ranch at Santa Rosa, the senator returned home by way of Tonopah and inspected the Halifax-Tonopah mine, in which he is largely interested. Senator Kearns says that high grade marketable ore has been encountered on the 1000 foot level of the Halifax-Tonopah, and that the prospects are bright for the property to begin shipping in the near future.

## THE ART OF DRESSING.

There is nothing that bolsters up self respect and creates self confidence like the feeling of being well dressed. Certain of correct personal appearance, most men will approach any person or situation with assurance. Conscious of an ill cut coat or a gaping collar, they will often quail before the observant stare of a street urchin.

To dress well and obtain this feeling of confidence is an art. To accomplish it on a limited income requires unceasing vigilance. Carefulness in expenditure obtains infinitely better results than recklessness. "Look before you buy" should be the motto of every thrifty man and woman.

The kind of looking that helps the most in the short-est time is the careful reading of advertisements in the better class newspapers. They will answer for you these vital questions:  
What?  
Where?  
When?  
How much?

## LOBBY INVESTIGATORS LISTEN TO MANY LETTERS AND DOCUMENTS ON EFFORTS CREATE PUBLIC OPINION

(By Associated Press.)  
WASHINGTON, June 18.—Letters and other documents bearing on the efforts of the sugar men to create public sentiment against free sugar, were read today before the senate lobby investigating committee, and showed that many papers in the western states have been induced to publish the propaganda. ## NEW LAW WILL ELIMINATE MANY DAMAGE CASES

**INDUSTRIAL COMMISSION BUSY AND WILL BE IN RUNNING ORDER SHORTLY.**

The industrial insurance commission of Nevada is getting busy at Carson and will be in motion before the first of the coming month. During the past two weeks the commissioners have sent out over four thousand letters to the different concerns hiring men in this state. It has been no small job to get this line up and to start the ball rolling in the right direction. The sending out of this literature is the first move to get in touch with those affected by the new law. A copy of the act with application blanks and a letter to each individual or company within the state. As some of the largest concerns in the state have volunteered the fact that they are going to come in, it lends encouragement to others.

It is one of the simplest and best laws that has been enacted in Nevada. To the lawyer, who is not money hungry, it may take some little business, but as a beneficial law and one that is aimed to be for the benefit of all, the lawyers as a rule are offering no objections.

The law has been in active operation in Washington for some time, resulting in thousands of damage matters being settled without the court's action. The Washington commission has given the Nevada members many a pointer and they are evidently taking the advice rendered and doing the work along systematic lines.

A lot of literature has been required at the office and this is being used as an introduction into a business that is bound to grow as the work is understood. The office force is getting down to hard work and some results should be in evidence during the next year.

## CONVICT ROSS IS RECAPTURED IN IDAHO

ence to the effort of Tarr's promise relative to sugar and tobacco.

Oxnard objected to the examination of private correspondence which will be presented to the senate as a whole.

The letters show Senators Lodge, Teller, Aldrich, Newlands and Patterson were friendly to the sugar people. They also told of the efforts to control the ways and means and Philippine committees and also efforts of a strong pressure on Speaker Cannon.

He said the limitations of the bureau under the federal pure food law was such that it was impossible for a complete protection to consumers as he was prevented by law to act in many cases. Not all the articles were analyzed by the bureau, and the label was used by manufacturers regardless of the contents.

## UTAH SHERIFF WILL LOCATE IN NEVADA STATE

**DAN CRONIN, PIONEER OF NEVADA, IS RENEWING ACQUAINTANCES HERE.**

Dan Cronin, a pioneer of Nevada, returned to this state a few days ago after an absence of 29 years. During this time he has resided in Eureka, Utah, where he served as marshal and sheriff for 12 years.

W. Booth of the Bonanza. Today he renewed his acquaintance with the Bonanza editor, the two meeting for the first time in 29 years.

During his residence in Utah Cronin married a Mormon belle and is now a firm advocate against race suicide. He is the father of 12 children, all of whom now reside in Reno.

At Eureka Cronin was secretary of the Tintic lodge of Elks for five years. The Tintic lodge has the distinction of being the only Elks lodge not bearing the name of the town in which it is located.

The meeting will last but one day and the Tonopah directors will return to this city on the following day.

If it's of exceptional value at the price, it's sure to be advertised in the Bonanza, else the merchant would be hopelessly unprogressive.

## JAPANESE CALL MASS MEETING DETERMINE ATTITUDE

**POSTERS INSCRIBED "GIVE US LIBERTY OR DEATH" POSTED NEAR EMBASSY.**

## NEW STRIKE IS MADE IN MINE AT OLD CANDALERIA

**M. G. BRADSHAW HAS OPENED UP ORE AT A DEPTH OF 200 FEET.**

A strike of rich silver ore has been made by Mark G. Bradshaw on the 200-level of his mine adjoining the Mt. Diablo and Holmes mines at Candelaria. The ore is of the altogether desirable kind—rich in horn-silver, and good for handsome net returns.

The discoverer is a hustling mining engineer of the Nevada university, and well known in that state. He is just now demonstrating that mines or ore bodies may still be opened in the old camps, even those supposed to have been pretty well explored.

The same ore body was opened on the 150-level, but at the 200 is much richer, and threatens to be wide enough to require square set timbering.

Bradshaw has been on the ground nine months, and from the ore found and developed on the 150-level has paid for the property, equipped it with a 15-horse power hoist, ore bins, etc., and more than paid for all exploration and development work. The ore opened within the past few days proves that without doubt Candelaria has still another mine. The hill on which the property is located is the one unexplored hill in the immediate vicinity of the big mines.

Shipping ore is a daily occupation now in Candelaria. Loaders are at work upon the old Mt. Diablo mine. The Diablo, Holmes, Lucky Hill and other mines have lately been bonded to parties who have in view the completion of a mill.

## ORE ASSAYING \$15 TO POUND IS UNCOVERED

**W. H. M'MULLEN IN WILLOW CREEK DISTRICT OPENS UP RICH LEDGE.**

Gold ore assaying \$15 to the pound has been opened upon the property of W. H. McMullen at Gold Springs, two miles north of the Willow Creek Mining company property in the Willow Creek district, according to John Ruppert, the veteran prospector who arrived from that vicinity yesterday. The ledge, which is about one foot in width, was broken into last Friday a short distance below the surface.

The gold is in seams and is of coarse variety. Ruppert declared that the discovery caused a wave of excitement to sweep over the entire district. McMullen is now sacking the ore and the production is being carefully guarded.

The McMullen property was bonded by the Wingfield interests several months ago but reverted to the owner who has been developing his claims since the original excitement started about eight months ago.

If you bought nothing but advertised goods during the next twelve months, you'd reduce the cost and raise the standard of living—surprisingly!
